Hi there fellow trader!

I'm Markus Heitkoetter,
founder of Rockwell Trading
and author of *The Wheel*
Options Trading Strategy.

By reading my book, you've taken
critical first steps to own your
future.

If I were to guess, you got my book
because you need a change?

You're tired of the 9 to 5 grind and
are ready to take back control of
your life.

No one gets that more than me.

There's never been a better time
than right now to dive into
trading.

Our financial markets are on the
brink of failure, and Social Security
is a bullet train speeding towards
certain disaster.

And who's supporting the little
guys? Certainly not Wall Street
and certainly not the big
banks.

Your only option? Take control of
your financial future just like I did.

Welcome to your future!

Markus Heitkoetter

COMPANY HISTORY

In 2002, Markus Heitkoetter arrived in the U.S. from Germany with \$30,000 in his pocket, having quit his job as a director at IBM to pursue a career as a trader.

Once in the U.S., Markus began evolving his trading career, working from home and living the trader's lifestyle. Anyone he talked to about his work was intrigued, and many confessed that they, too, wanted to work from home and, more importantly, work for themselves. Markus was quick to invite anyone and everyone to his home office to show them exactly what he did day after day-in his mind, showing was always better than, simply, telling.

What Markus didn't expect? That visitors would eagerly tell their friends. By 2005, just three years after he arrived in the U.S., Markus was no longer the unknown trader-to-be. Instead he was trading full time and taking his first steps to establish his trading education business. Markus designed a system capable of teaching anyone how to trade in only 15 minutes a day. His strategies and software were simple, strategic and completely streamlined -and, more importantly, they worked.

Today, over 461,752 people in 196 countries have downloaded Markus' book, "The Complete Guide to Day Trading" as a first step in their journey to lasting financial freedom. His next book, "The Simple Strategy," has remained the #1 best selling book in its category for more than four years, a testament to the power of Markus' unique approach to trading.

Seen on many top financial education platforms including NBC, CBS, FOX, ABC, Rockwell is also a proud member of the Better Business Bureau and has maintained an A+ rating for many years.

THE POWERX OPTIMIZER

Automatically Find The Best Stocks and Options For “The Wheel”

I developed The PowerX Optimizer to help save me time and to more systematically approach the markets. After years of tweaks and improvements I think we've built the best software for traders of any skill level.

Seriously. With just a few clicks of my mouse, you get a list of both conservative and aggressive Wheel Trades, without hours of hunting through thousands of stocks. You will get the best strike prices and expirations to trade.

And the built-in Wheel Calculator shows you exactly what to expect from each trade and when to take profits.

I would never trade The Wheel Strategy without this powerful tool. I use it every day in my trading.

We're making the software better and better and to this point, I've invested nearly \$1,000,000 into its development... and it's been worth every penny.

If you'd like to take a no risk tour of the software, you can schedule it here to check it out:

Coaching & Mentoring

Rockwell Trading anchors its processes in comprehensive one-on-one coaching and mentoring. Your Rockwell Trading Success Coach will mentor you directly to help you eliminate the negative habits holding you back while, at the same time, pushing you to refine your goals and map out a path from here to there. Because once you're there, there's no limit.

- Focus on clarifying your goals and ambitions, so you can strategize a meaningful path from point A to point B.
- Learn to eliminate negative habits-the habits standing between you and long-term success.
- Gain the skills, resources and know-how to eliminate challenges along the way, and keep yourself moving forward.

Every trader and every trading path are different - different account sizes, trading styles, personality, time constraints and prior knowledge. So why should you follow a training plan built for someone else?

Through ongoing coaching and mentoring, you'll construct an execution plan that makes sense for you and your trading right now - not for someone else, not for some other day, not for some other set of circumstances. Just YOU.

Right now to be eligible to join our coaching program you must already be an owner of our software, The PowerX Optimizer. If that's you, then feel free to schedule a free strategy session with a Rockwell Trading team member here:
